Begin Active Work on Field

LINCOLN, Nov. 9 .- (Special Telegram.)-Active preparation for the coming battle with the Jayliawkers, which will settle the championship of the Missouri vailey, was begun by Coach Stielim and his squad Thursday night with a long signal practice. The Cornbusker regulars did not indulge in scrimmage, out Stichm drove them through so long and fast a signal practice that the squad was weary when he finally called a halt.

Rejuvenated by a rest of your days after a series of four gruelling battles, he Cornbuskers dashed through the plays with more "pep" than they have displayed in some time and the coach was highly pleased. The squad did not attempt any new formations Thursday night but spent considerable time in dril. on plays which have been recently devised by Steihm. "There is nothing so fascinating on the one hand and nothing so difficult on the other as the tracing by heredity of the development of genius and real greatness," said President Taft, beginning his address,

"Perhaps," he continued, "this is be cause there are so few instances in hisory that prompt the search. The explanation of Lincoln and his wonderful character from his origin and environ ment is almost as difficult as the explanation of Shakespeare; but the pastion of the world grows for more intimate knowledge of his personality and a deeper inquiry into the circumstances of his wonderful life."

The president noted the appropriateness of the memorial on the Lincoln farm

and went on saying: "Few men have come into public prominent who came absolutely from the soil as did Abraham Lincoln. It is difficult to imagine the lack of accommodation, comfort and necessities of life that there were in the cabin in which he was born.
